

# Merlin<sup>®</sup> III

VISUAL DESIGN SOFTWARE

Offered as an optional accessory to a number of TMC470- based **Pinstamp<sup>®</sup>** Marking Systems, Telesis' powerful WIN 32 **Merlin<sup>®</sup> III** Visual Design Software with its state-of-the art graphical user interface, makes marking pattern design quick and easy.

"WYSIWYG" (what you see is what you get) interface provides a to-scale image of the pattern as it's created. Just "click & drag" for immediate adjustment to field size, location or orientation. Pattern Wizard Mode makes simple pattern design a snap even for the computer novice.

Marking "tools" available include text (at any angle), arc text, rectangles, circles, ellipses and lines. Multiple fields can be grouped and saved as a block to form a logo, or import logos via DXF CAD files. Non-printable fields clearly show

the graphical representation of the part being marked. Use the convenient, "GO TO" command to avoid obstacles within the marking window.
